WE ARE THE ROCK

Prudential
Bring Your Challenges®

Prudential is one of the world's largest financial institutions, with \$1.551 trillion in assets under management¹ and approximately \$4 trillion of gross life insurance in force worldwide.² We have one of the most recognized brands in the United States: The Rock, an icon of strength, stability, expertise and innovation.³ We are known for our ability to deliver on our promises to our customers and we are recognized as one of the world's most admired companies. We believe our company has the financial strength and depth of resources to deliver value for our customers, shareholders and other stakeholders while meeting our regulatory obligations.

We have been building on a heritage of success for more than 140 years.

We have built our company on a proud heritage of life insurance and asset management expertise. Our focus on life insurance, retirement and asset management is the result of numerous actions taken over several years, which have produced a highly complementary set of businesses with competitive advantages and opportunities to drive returns.

We offer our individual and institutional clients a wide array of financial products and services, including life insurance, annuities, retirement-related services, mutual funds and investment management. Our clients continue to see value in the solutions we offer, as demonstrated by flows of client assets into our businesses. And we offer these products and services through one of the largest distribution networks in the financial services industry.

Prudential is the largest life insurer in the United States (life and health combined) based on total admitted assets.⁴ Our domestic insurance company subsidiaries' financial strength is rated by the major independent rating agencies as follows:

A.M. Best Company: A+	Fitch Ratings: AA-	Standard & Poor's: AA-	Moody's: Aa3
---------------------------------	------------------------------	----------------------------------	------------------------

Moody's does not rate Pruco Life Insurance Company of New Jersey or Prudential Annuities Life Assurance Corporation. Ratings as of February 5, 2020. The above ratings are subject to change and do not reflect any subsequent rating agency actions.

Our balance sheet is strong, and we have solid capital consistent with our "AA" ratings objectives for our insurance companies. Additionally, we maintain appropriate reserves, capital and risk control procedures to help manage risk and protect our clients' assets.

We are positioned to manage through the changing market.

Changing market conditions are challenging for companies around the world. The balanced mix of risks and businesses that we've built since becoming a public company in 2001 positions us well to manage through the challenging economic environment.

Prudential's designation as a nonbank SIFI was removed during the third quarter of 2018, an outcome that validates Prudential's sustainable business model, capital strength and comprehensive risk management. During its brief history as a nonbank SIFI, Prudential generated superior returns on equity and produced significant cash flows, a considerable portion of which we have returned to shareholders in a highly disciplined way.

We welcome appropriate regulation across our businesses and, throughout our history, we have successfully innovated and adapted to many changes in regulatory constructs.

We have a diversified mix of businesses and risks.

The quality of Prudential's business and risk diversification is a strong differentiating factor for the company. We believe Prudential's diversified and balanced mix of U.S. and international businesses positions us well for sustainable long-term performance consistent with our goals.

Our global operations diversify our business risk across a broad range of both geographic and demographic profiles. The mortality risk of life insurance helps balance the risks of our other products, such as the longevity risk of variable annuities and group annuities. Our balanced mix of businesses enables Prudential to provide financial growth and protection to clients at all stages of their lives.

Our international businesses and domestic insurance protection businesses—which comprise more than half our capital—are impacted less by factors in the U.S. equity markets, and more by other factors such as mortality risks and policy persistency.

We have a diverse mix of clients invested in a broad range of asset classes.

Our specialized investment managers have a global presence and hold strong market positions in each asset class, offering a wide range of products and serving a diversified client base, including corporations, public and private pension plans, and retail clients.

Prudential has \$1.551 trillion in assets under management, with \$1.31 trillion managed by our asset management businesses.
