

Contribution Limit Calculation Form

Do you know how much you can contribute to your 403(b) plan?

How do I know when to complete a Contribution Limit Calculation Form?

If you answer “Yes” to any of the questions below, you should complete this form and forward to WEA Member Benefits for processing. If you answer “No” to all of the questions, you do not need to complete this form.

1. Do you have 15 or more years of service with the same employer and would like to know if you are eligible for the 15-years-of-service catch-up contribution?
2. Will you be receiving employer contributions to your 403(b) plan?
3. Do you make salary deferral contributions to another 403(b) plan, 401(k) plan, SIMPLE plan, or SEP plan?
4. Does your employer require you to provide them with written documentation of your contribution limit calculation results?

The elective (aggregate total of before-tax and after-tax) contribution limit base for 2021 is \$19,500. In addition, if your employer does not require you to complete a Contribution Limit Calculation and you will be age 50 or older in 2021, you may contribute an additional \$6,500 without completing this form. However, if you are eligible for the 15-years-of-service catch-up, the age 50 catch-up amounts will be designated to any available 15-years-of-service catch-up before the age 50 catch-up amounts.

Contribution Limit Calculation (CLC) for 403(b) Plan

The Internal Revenue Code (IRC) sets limits on the amount of money you can contribute to your 403(b) account. The combined amount you can contribute before and after tax cannot exceed this limit. As a service to you, we will help you calculate the maximum amount you can contribute to your WEA TSA Trust 403(b) account.

We can provide you with contribution history for your WEA TSA Trust 403(b) account, however, contribution history for 403(b) accounts with another provider need to be submitted by you *each year* to complete a CLC. If you have any questions about income or work history, check with your employer's payroll department.

In addition to reporting your contribution limits, we will let you know if you are eligible for any of the catch-up elections. These elections may let you contribute more money than the IRC usually allows.

The accuracy of this calculation is dependent upon the accuracy of the information provided by the participant. Incomplete forms cannot be processed.

After completing this form, mail it to the address on back and we will send your employer a report showing your contribution limits.

If you do not have an existing account with us, please include your completed *403(b) Application*.

If you have questions or need assistance completing this form, please call us at 1-800-279-4030.

Fifteen-year catch-up contributions are subject to a lifetime cumulative limit of \$15,000.

If you made catch-up contributions (including age-50-or-over catch-up), tell us the amount of the contribution over the base IRC amount for each year beginning in 1987. The WEA TSA Trust, or any company with which you have an account, can provide you with a history of your contributions.

Here's an example: The maximum IRC base annual contribution in 1999 was \$10,000 (as shown at right). If you contributed \$11,500 in 1999, enter \$1,500 in the space next to 1999: (\$11,500 – \$10,000 = \$1,500).
